MySQL  
React.js  
Redux.js  
Reduxtoolkits  
Version Control  
(Git and Github)

## LANGUAGE

English

## ABOUT ME

Over the period two years, I have evolved from a budding coder to a seasoned professional. I have not only solidified my proficiency in HTML, CSS, and JavaScript but have also become fluent in the intricacies of front-end frameworks and libraries. My experience likely includes tackling more complex projects and collaborating closely with UX/UI designers to create seamless user experiences. A responsive web application is now second nature. In these two years, you've encountered and overcome various challenges, refining my problem-solving skills and deepening my understanding of the ever-evolving landscape of web applications. Git repositories have become a familiar part of my workflow, and it might have even delved into continuous integration and deployment practices. The community and the tech industry have likely become more familiar, and I am considering specializing further or exploring new technologies to stay at the forefront of front-end development.

## WORK EXPERIENCE

- June 2022 - Present  
Omomakay  
Front-end Developer (Freelancer)
  - . Creating Login and signup page.
  - . Creating user dashboard
